**Touring:** 4 people (2 dancers, 1 technician, 1 production manager)

**Duration:** 35 minutes

**In case of rain:** Plan for an indoor alternative or a delay the same day

**Audience position:** Audience should be placed in a 360° arrangement.  
Adaptations are possible

**Typical technical planning:** Team will arrive the day before the show and depart the morning after the final performance (ideally).

- Rehearsals : 2 hours
- Dismantling : 10 minutes

**Staff required:**

- 1 technician for the sound installation
- In case of night time performance: 1 lighting technician

**Playing area:** A circle with a diamtre of 16m (audience included). The artists need a circle with a diamtre of 7m to dance. The ground needs to be flat and even. Type of surface to be discussed together.

**Sound system to provide:** 4 speakers EV ZLX15P and 2 subwoofers EV ELX 118P  
In case of small audience, it is possible to use only two speakers.
